Dear collaborators/partners,

It was a long and difficult project that was finalized successfully and it will be used by few hundred users. If we let those tensioned moments passed – inherently for such a project – our collaboration brought benefits and experience for both parties, but it also brought friendship between the two teams. Thank you for your professionalism and reliability shown within this project and I wish you lot of success in the future.

Assuring you of my highest consideration,
Mariana Petre

Stimati colaboratori,

A fost un proiect lung si greu care s-a finalizat cu succes si care va fi utilizat de cateva sute de utilizatori. Daca trecem cu vederea cele cateva momente de incordare - inerente la un asemenea proiect - colaborarea noastra a adus beneficii si experienta de ambele parti si nu in ultimul rand prietenie intre cele doua echipe. Va multumesc pentru seriozitatea si profesionalismul cu care ati abordat acest proiect si va urez in continuare mult succes.

Cu multa consideratie,
Mariana Petre
