

**TINTON FALLS, N.J. July 21, 2020 – EPS Corporation Mission Support Services Division in Panama City, Florida has been awarded their first task order under the Seaport Next Generation contract supporting Technology Refresh, Life Cycle Engineering Support, Hardware, and Software Support for Joint Expeditionary Command and Control (JEXC2).**

“EPS is proudly committed to the US Navy, Naval Surface Warfare Center Panama City Division (NSWC PCD), and the mission of the JEXC2 Family of Systems under PMW 790 Shore and Expeditionary Integration Program Office. JEXC2 systems consists of various Command, Control, Communications, Computers and Intelligence (C4I) subsystems and networks with accompanying infrastructure and communications equipment supporting the overall Naval expeditionary mission. EPS takes great pride in being an integral part of the Government and contractor team designing, developing, building, fielding, training, operating, and sustaining these systems over their entire life cycle. This new task order allows us to continue our long-standing support for this customer,” said Allen Armstrong, Executive Vice President/General Manager of the Mission Support Services division.

“We are honored at the opportunity to continue supporting our US Navy customers and their critical expeditionary mission support requirements around the globe. This Technology Refresh, Life Cycle Engineering Support, Hardware, and Software Support for the JEXC2 FoS contract award at NSWC PCD solidifies the EPS partnership with the US Navy for many years to come,” said Antoinette Musorrafiti, President and CEO of EPS Corporation.

EPS Corporation is a Woman Owned Small Business that has provided engineering and logistics services since its formation in 1983, with its corporate headquarters located in Tinton Falls, New Jersey. EPS has earned and maintained International Organization for Standardization (ISO) 9001:2015 certification, AS9100D certification, and Capability Maturity Model Integration for Development and Services (CMMI® – DEV V1.3) Systems and Software appraisal, all of which document that EPS is a business committed to providing quality services to our customers.
